LAGRANGE COLLEGIATE INSTITUTE.

ORIGIN AND HISTORY OF HIS MATERIAL OUTFIT.

—o—

PRELIMINARY MEETINGS.—The first insertion in the "Records of the Board of Trustees of LaGrange Collegiate Institute" is as follows:

LIMA, LAGRANGE CO., IND., 6th Feb. 1837.

At a meeting of the friends of christian education, held at the house of Lewis Vance, this day, the Rev. Christopher Cory was called to the chair and Joshua T. Hobbs appointed secretary.

Some conditional offers and proposals having been made by gentlemen present, of lands and money," it was

Resolved, That in view of the prospects before us we are warranted in undertaking to establish a Literary Institution to be located in this neighborhood, to be denominated "THE LAGRANGE COLLEGIATE INSTITUTE."

Joshua T. Hobbs, Rev. John J. Shipherd, of Oberlin, Ohio, Elisha Dickinson, Thayer H. Codding, Ansel Dickinson, Millis Averill and Nathan Jenks of Ontario County, New York, were selected and recommended as a Board of Trustees, and the meeting was dissolved.

James C. Keith, now a citizen of this village, states that he attended a meeting in Victor, N. Y. in the year 1835, in which the proposal to establish such an institution somewhere in the West was made by Nathan Jenks and advocated by Elisha Dickinson and others.

Under date "Lima, Ind., May 20, 1832," Rev. C. Cory writes—

"Mr. Nathan Jenks was the principal agent and founder of the institute. He first came into this section of the country, in company with several other members of a committee of investigation and arrangement for locating and bringing forward a literary institution somewhat after the model of the Oberlin Institute."

In 1832 Mr. Jenks had forsaken an infidel club of which he had been an active member, and, under the influence of the Rev. Chas. G. Finney, had consecrated his wealth and business talents to the defence of that cause which he had previously labored to destroy. Hence the inception of this new educational enterprise, and the religious aspect which it assumed.

BOARD OF TRUST ORGANIZED.

The Board of Trustees of LaGrange Collegiate Institute held their first meeting on the 6th day of February, 1837,—immediately after their nomination as recorded above,—and organized by choosing Nathan Jenks President, Mills Averill Secretary, and Dr. Joshua T. Hobbs Treasurer; and issued a prospectus a part of which we here insert:

PROSPECTUS.

"The trustees propose the establishment of a seminary at —— LaGrange Co., Ind., to be denominated "The LaGrange Collegiate Institute," the plans and principles of which, like those of the Oberlin Collegiate Institute in the State of Ohio, are to be the following:—

I. It shall embrace Five Departments of Instruction;

A Preparatory or Academical School;

A Collegiate Course;

A Full Theological Course;

An Irregular or Shorter Course for those advanced in life or in peculiar circumstances;

A Thorough Course of Female Education.

II. The several Courses of Study shall be decidedly of a christian character, exclusive of demoralizing pagan authors and sectarian principles, and designed to impart the greatest amount of practical knowledge while they impart best mental discipline.

III. To meet the demands of Physiological Law, and the indigence of promising youth, the Manual Labor System shall be incorporated with all the scientific departments as an essential part.

IV. A liberal charter shall be obtained as soon as may be, empowering the Trustees to fill their own vacancies.

The grand principle upon which this institution shall be based is this:—Corporate bodies and public institutions, no less than

individuals, are bound to do right, irrespective of worldly expediencies, popular favor, or any consequences. Therefore this institution will allow free discussion, and openly sustain the great moral enterprises of the day—such as Revivals, Temperance in all things, the sanctification of the Sabbath, Moral Reform, Christian Union, and human rights, under whatever color or circumstances.

As this is a great work of public utility, which cannot be done by individual enterprise, the liberal co-operation of the philanthropic and pious is solicited."

LOCATION.

Two days later, Feb. 8th, 1832, the Trustees located the proposed institution upon its present site.

FUNDS SOLICITED.

Feb. 10th. In order to secure a conditional subscription of Five Thousand Dollars from Nathan Jenks, it was decided to raise as speedily as possible by subscription an additional Ten Thousand Dollars.

ERECTION OF BUILDINGS.

Under date of May 19, 1837, it is recorded "Messrs Salmon, Mills and others having come on from Ontario County, N. Y., with a view of commencing work upon the School Buildings, and Mr. Mills having made a contract with Mr. Jenks in relation to the same—

"*Resolved.* That Mr. Ansel Dickinson and Mr. Mills be, and they are hereby constituted, a committee to construct a suitable workshop upon the College grounds."

The building erected in accordance with this resolution is 18 by 26 ft., one and a half stories high, and has done service during the last 35 years as work shop, school house, dwelling, and dormitory, and is still in good condition.

June 3d. 1837. Reference is made to the progress of agents in securing funds and they are requested to make an estimate "of the probable expense of the contemplated public buildings."

Two days later, June 5th, we read:—

"*Resolved.* That we will proceed immediately to erect a building 30 by 50 ft., $2\frac{1}{2}$ stories high as a collegiate building."

The raising was a memorable occasion. No intoxicating liquors were furnished as the custom of the period required, a prayer was offered by Rev. Christopher Cory, donations were volunteered, and the assembled multitude, under the guidance of S. R. Mills, united with hearty good will in putting up the frame. James C. Keith,

furnished "early potatoes" for the accompanying feast, and places the date as early as the 1st of August.

The frame thus erected was not immediately enclosed. The "Records" are silent on this point, but we conclude that the roof and siding took their appropriate places previous to Dec. 1838, as an exhibition was held in the building early the following spring. During the Summer and Autumn of 1840, it was brought by Charles Doolittle, (carpenter) and Nathan Reynolds, (mason), to such a state of completeness that it could be permanently used for school purposes. These young mechanics had enjoyed the advantages of the school the year previous.

SUBSEQUENT IMPROVEMENTS AND REPAIRS.

For a period of nearly twelve years the building stood upon twenty round posts cut from large forest trees. In the Spring of 1849, Messrs. Addison and Wear Drake, recently members of the institution, substituted the present stone foundation, fifty dollars of the expense having been met by the students. The inside received its first coat of paint in 1852. The building was replastered and otherwise repaired in the Autumn of 1849, at an expense of about \$300. In 1861, it was again thoroughly repaired and certain changes were made for the purpose of placing it more immediately under the care of the Principal and his family. Soon afterward a barn was erected, and improvements were made on the premises. For these several outlays, donations amounting to nearly two thousand dollars were received. Subsequently \$600 have been applied to making fences, painting the main building, and fitting up a new school-room. By permission of the Trustees, a Boarding House has been erected upon the premises at private expense.

EARLY DISCOURAGEMENTS.

LaGrange County was organized in 1832. Its first census in 1840 found a population of 3663, and as it more than doubled within the next decade, we may safely estimate the population in 1857, at about 2,000. It will therefore be easily understood by those well acquainted with the circumstances of new settlements, that the requisite funds were secured with great difficulty.

While others felt that they were doing what they could, the chief burden of the original outfit was borne by Nathan Jenks, and to his enterprise and liberality we are chiefly indebted for the existence of the institution.

Rev. John J. Shipherd, of Oberlin, attended meetings of the Board on the 25th, 26th and 27th of September, and on the 4th of October, 1837. Under the date last named we find the record.—

“Rev. J. J. Shipherd declined acting as the general agent of this Board on the ground that, at present, the prospect before him would not warrant the undertaking.”

The reasons for this decision are manifest, pointing to the extreme difficulties through which the institution was compelled to struggle. Six years later Mr. Shipherd was engaged in a similar, but more successful enterprise at Olivet, Mich., where he soon after died.

ENDOWMENT FUND.

After some thirty years adverse experience in managing the pecuniary affairs of the institution, the Trustees authorized the solicitation of a Permanent Endowment Fund of Ten Thousand Dollars (\$10,000), the income of which should be applied to the support of instruction in the institution, the principal to remain unexpended. The response to this appeal was unexpectedly prompt, and in June, 1867, the amount was secured. The following is a copy of one of these Endowment Notes with the signature omitted.

“\$100. Five Years after date I promise to pay to the Trustees of LaGrange Collegiate Institute the sum of One Hundred Dollars, with interest annually, as part of a Permanent Endowment Fund:—

Provided, Ten Thousand Dollars shall be secured for this purpose by reliable pledges previous to August 15th, 1867.

Lima, April 24, 1866.

At the same time, Eight Hundred Dollars were given for the general purposes of the institution.

We received one donation of	\$500.
“ “ Four donations of	\$250 each.
“ “ One donation of	\$200.
“ “ Thirty donations of	\$100 each.
“ “ Forty-six donations of	\$ 50 each.

And the remainder in smaller sums. Of the Seventeen Millions of dollars donated for educational purposes in the United States, within the last ten years, we believe no similar amount was given more spontaneously, or more closely indicated the popular favor. As the original notes are redeemed, we retain the principle

pal, thus carefully preserving the entire Fund for the permanent benefit of the institution.

PRESENT CAPITAL.

Our domain of 40 Acres; The School Building (described above); The small building (the first erected); A large and commodious Barn; Estimated to be worth in the aggregate.....	\$ 7,000 00
And the Endowment Fund.....	\$10,000 00

OUR CHARTER—"AN ACT TO INCORPORATE THE LA GRANGE COLLEGIATE INSTITUTE.

[Approved, February 13, 1840.]

SEC. 1. *Be it enacted by the General Assembly of the State of Indiana*, That Nathaniel Jenks, Joshua T. Hobbs, Thayer H. Codding, Aaron Thompson, Joel K. Salmon, Cyril W. Wilson, and Chas. Mosher, with their associates and successors be, and they are hereby created a body politic and corporate, to be styled the "Board of Trustees of the LaGrange Collegiate Institute, and by that name to remain in perpetual succession, with full power to acquire, hold and convey property real and personal, to sue and be sued, plead and be impleaded, to have and use a common seal, to alter and renew the same at pleasure, to make and alter from time to time such by-laws as they may deem necessary for the government of said institution, provided such by-laws shall not be inconsistent with the constitution and laws of the United States and of this State.

SEC. 2. The trustees of said institution, may establish under this charter, on the location they have made, so many departments of liberal education, as they may deem necessary for the public good, and their means will permit, and confer on those whom they may deem worthy, such honors and degrees as are usually conferred in similar institutions.

SEC. 3. The board of trustees shall have power to increase their numbers to eighteen exclusive of the president of the institution, who shall be *ex officio* president of the board, and fill such vacancies as may occur, and a majority of their number shall constitute a quorum to do business. They may also appoint a faculty consisting of a president, professors, tutors and teachers, and such other officers and agents as the interests of said institution requires, and displace any of the same, for good and sufficient reasons, and prescribe the course of study in said institution.

SEC. 4. The trustees shall faithfully apply all funds, which they shall receive, as they shall judge will best promote the usefulness of their institution: *Provided, nevertheless*, that if in any case, donations or bequests shall be made, and received by them for particular purposes, not inconsistent with the designs of this institution, every such donation shall be applied in conformity to the designs of the donor.

SEC. 5. All process against this corporation shall be by summons, and the service of the same shall be by leaving an attested copy thereof with the treasurer of the institution, at least ten days before the return thereof.

SEC. 6. This board shall hold their first annual meeting on the first Monday in May, 1840, at Ontario, in the township of Lima, LaGrange county, and shall meet on their own adjournment.

SEC. 7. The legislature by a vote of two-thirds of each house, may amend this charter of incorporation, whenever they may deem it necessary."

THE SCHOOL.

OPENING DEFERRED.—Record of Trustees October 24, 1837; *Resolved*, That the resolution for opening a Preparatory school on the second Wednesday of November next be rescinded, as being providentially impracticable, and that a like school be opened, with the leave of Providence, on the second Wednesday of November, 1838.

SCHOOL TAUGHT BY MR. AND MRS. WILSON. THE SICKLY SEASON.

The next *Record* is under date of June 9th, 1839, after an interval of one year and eight months. The village of Ontario is, at this time, first mentioned. It consisted of from 15 to 20 families. Under the direction of the Trustees, a school had been taught by Cyril W. Wilson, beginning about December 1st, 1837, and continuing till March, 1838. Mrs. Beniah Wilson continued the school till July 4th, "when that terrible sickly season came on, stopping all business before the 19th. From the 20th there was only one man—Mr. Salmon—able to go around to the 15 or 18 families, and he only just able to carry a pitcher of water to each."—C. W. Wilson, Rockford, Illinois, May, 1872.

Mr. and Mrs. Wilson taught the next winter 1838 to 1839, using the unfinished buildings erected by the Trustees. Several families beyond the limits of the village patronized the school, thus forming a nucleus for the proposed Academical Department.

ACADEMY ORGANIZED. W. J. BAXTER, PRINCIPAL.

October 21st, 1839, the first of the five departments enumerated in the Prospectus was organized and placed under the care of Witter J. Baxter, Mr. Wilson continuing his services till the first of April following. A Boarding House was established by the Trustees, and placed under the care of Mr. and Mrs. Wilson. After two terms, it was permanently closed.

CHARACTER OF THE SCHOOL.

From the neighboring farming community came many students of mature age, who at an earlier period had been favored with good educational privileges at their eastern homes. Mr. Baxter writes:—"Jonesville, Mich., May 8, 1872. I always look back to the year at Ontario as one of the happiest of my life. I never saw the same number of students together who were in any respect their superiors. They were diligent, and gentlemanly and lady-like in their deportment, and all the older ones were more like companions than pupils."

EXHIBITION, APRIL, 1840.

A very successful exhibition closed the second term, printed programmes of which are still extant. There were forty-nine distinct literary performances, including original orations in Latin, Greek, and English, six dialogues, ten compositions, and an original closing hymn. The Exhibition was held in "The Collegiate Building," temporarily fitted up for the occasion. The Academy had been taught the first term in the building mentioned above as erected for a workshop, with recitations in a private dwelling. The second and third terms the Collegiate Building was brought partially into use, but about the first of July it was surrendered to the mechanics for further improvements.

ROLL LOST.

The roll of this department during its first year has not been obtained, but Mr. Baxter sends us some names from recollection, and others are obtained from the *programme* mentioned above. These will be found at the close of the General Catalogue.

SOCIAL INTERCOURSE.

Extract from Trustees' Record under date "March 13, 1840."

"Resolved, That all social intercourse between the different sexes be prohibited, except at times when they are necessarily called together, at regular meals, recitations, or other public exercises of the school.

"Resolved, That the Principal and Assistants be requested to strictly enforce the foregoing resolution.

"Resolved, That these rules be posted with the former Rules."

We find in these "Records" no account of the repeal of "these rules," and may therefore presume that they are still in force. If the members of the present Board of Instruction have seemed remiss in yielding a hearty obedience to these social requirements, they will doubtless plead ignorance of their existence. Did some enterprising student prevent their appearance upon the Bulletin, lest they should give offense to the incoming administration? Or shall we rather give credence to the tradition that the Board promptly removed (without repealing) them, to quell a rising rebellion? It will be noticed that they apply to teachers and students equally.

PROPOSED REMOVAL.

At this meeting of the Trustees a communication was received from the citizens of Lima and vicinity, asking the transfer of the institution to the vicinity of that village and, by way of inducement: making pledges of "Wheat on the ground." The use of one

- hundred acres of land for five years," "Labor," "Lumber," "Produce," "Pork," "Land," (for farm), "Village Lots," and "Cash," amounting in the aggregate to \$5320.

The Record proceeds:—

"This proposition not being considered equal to Nathan Jenks' pledge of Ten Thousand Dollars, and in view of our having a flourishing school in operation numbering from 50 to 60 students, and a building erected worth from \$3,000.00 to \$4,000.00, the proposition was rejected by a unanimous vote."

One of the teachers estimates the attendance much larger.

1840-41. J. D. SKELLY PRINCIPAL TEACHER.

The name of John D. Shelby does not appear on the Records of the Board of Trustees. From other sources we learn that he had charge of the institution during the school year 1840-41, and taught in the new building, but we have not been able to obtain a list of his pupils.

1841-42. ADMINISTRATION OF THE MESSRS. STEELE.

From a printed circular it has been ascertained that the Institute was advertised to be re-opened on Monday, September 22, 1841, under the care of Rev. Julius Steele. He was assisted by his son, Henry T. Steele, who had the sole charge during the third Term, which closed with an exhibition, July 1, 1842. Mr. Steele, Jr., under date, "Chicago, May 18, 1872," sends the names of about 50 students, and estimates the whole number during the year, at not less than 80. He adds:—"I have not been acquainted with any school which combined among its pupils so large a proportion of native talent, giving promise of so great usefulness in the future on the part of its members. Yet I have known very little of them since my connection with them ceased."

1842-44. WM. JONES AND EDWARD BROWN TEACHERS.

Rev. Wm. Jones had charge of the institution from October, 1842, till April, 1844, with the exception of the term which commenced May 9, 1843, during which it was under the care of Edward Brown. We have not succeeded in securing the roll of the Institute for any portion of this period.

1844-56. R. PATCH AND A. H. KERR, PRINCIPALS.

Rufus Patch took charge of the institution May 1, 1844. During an absence of six months from October, 1849, to April, 1850, Rev. A. H. Kerr, assisted by Mrs. Kerr, conducted the Institute. Miss Julia A. Bundy taught the Spring term of 1852, and Miss Adaliza Hawley the Spring term of 1856.

1856—1861. H. C. MORSE, A. J. VAN ETTE, F. COTTON,
PRINCIPALS.

Rev. H. C. Morse was principal from September, 1856 to December, 1858. He was succeeded by A. J. Van Etten, who taught a part of the next year. Mr. Frank Cotton, assisted by Mrs. Cotton, sustained a school in the Seminary Building during the year 1859-60.

ENTERPRISE ABANDONED.

The institution was at length abandoned, and the Domain transferred to the original donor, the main building remaining unoccupied till the close of 1861.

1862-72. SECOND ADMINISTRATION OF R. PATCH.

The enterprise was, however, resumed in the Autumn of that year, the property was again committed to the care of the late Trustees and others associated with them, and on the sixth of January, 1862, Rufus Patch once more took charge of the Department of Instruction. The Institute has been uninterruptedly under his care till the present time, a period of ten and a half years.

OUR SCHOOL RECORDS.

—o—

The present principal has preserved complete records of attendance during the 22 years (nearly) of his administration. We invite attention to a few general facts derived from this source.

OUR PATRONAGE.

The first eleven years to which reference has been made—1844 to 1856, may be subdivided into periods of $5\frac{1}{2}$ years each, and the ten years following January 1862, may also be subdivided, so that the facts pertaining to our patronage may be easily compared.

1st Period—	$5\frac{1}{2}$ years—	1844 to 1850—	Average attendance	35.6
2d " " "	1850 " 1856	" "		42.6
3d " 5 " 1862 " 1867	" "	" "		43.6
4th " " " 1867 " 1872	" "	" "		38.4

Omitting fractions.

1st and 2d Periods—	11 years—	1844 to 1856—	Av. attendance	39
3d " 4th Periods	10 " 1862 " 1872	" "	"	41
Whole Period, to June 1872, 22 years,	" "	" "	"	40

The actual attendance has varied from less than twenty to more than a hundred. In the Fall Term of 1866, we enrolled 120 different students, nearly as many in 1869, while the average attendance for these Terms was but 66 and 69 respectively, only 56 per cent. of the enrollment. Our patronage is chiefly from the farm-

ing population, and our students of each Fall Term of 16 weeks (September to December) have largely supplied the demand for teachers in our public schools, while others have taken their places before the close of the term. For a like reason our roll during the Spring and Summer Term is usually small. Our actual attendance the last week of June, 1872, was but 18.

AGE OF OUR STUDENTS.

During the year closing with March, 1872, we enrolled 113 different students, but eight of whom were under 14 years of age, while 19 were from 21 to 32 years old.

Their average age was 18 years.

Males	18.75
Females	17.3

In the early history of the institution we did not record the ages of the students, but they were generally older than those recently in attendance. No other fact pertaining to our patronage so clearly indicates the character of the school and the nature of the work we are doing. We are dealing chiefly with minds that are *matured*, and capable of making rapid progress in study.

INCOME FROM TUITION.

Our Tuition Bills during the first two Periods—1844 to 1856—amounted to \$5165, averaging less than \$500 annually. During the Ten Years closing January 1, 1872—after subtracting cost of contingencies—they amounted to (nearly) \$7,500, averaging \$750 annually. Our rates during this last ten years have been increased about 40 per cent.

SUPPORT OF INSTRUCTION.

During the first period of five and a half years, the income from Tuition was our only resource for the support of Instruction. During the second like period rents of buildings and land were added, to the value of \$75 annually. During the third Period the income of the Board of instruction was still further increased by the free use of the buildings and premises, and the payment of \$100 annually from other sources. During most of the fourth Period the income of a part of the Endowment Fund has been substituted for the free use of the buildings and premises, and the rent of these is paid into the treasury of the Institute.

When it is remembered that we have usually employed two well

educated teachers, the enquiry will naturally arise, how we could secure this kind and amount of service for so small compensation, and it has been deemed hardly creditable to the business enterprise of our present Principal that he has not sought elsewhere a better salary. In reply, we would refer to the fact that, in our rural districts, previous to 1856, from \$400 to \$500 was regarded a good salary for the pastor of a church, and that assistance was easily secured at moderate charges, when our public schools were paying female teachers but \$1.50 per week. As salaries have risen the provision for the support of our teachers has correspondingly increased. The fact of permanency must answer in part for our actual success in this respect. And still the criticism is apparently just. How otherwise shall we account for the fact that, after an average experience of less than a year each, eleven others who have had charge of the Institute have voluntarily sought more lucrative situations elsewhere?

NECESSITY FOR THE FUND.

An average attendance of forty, with charges for instruction averaging \$20 a year, will secure an annual income of but \$800, one hundred of which will be needed for contingent expenses. Hence the necessity for the Endowment Fund.

VITALITY TESTED.

The Public Schools of Indiana are required by law to furnish instruction not only in the Common Branches (so called), but also in Physiology and the History of the United States, and Graded Schools are established in all our villages. While instruction in so many branches of study is thus offered without charge to our entire school population, our chartered institutions have in most instances, found their occupation gone, leaving the LaGrange Collegiate Institute the only institution of its kind, in the centre of a circle which embraces a territory nearly as large as the State of Massachusetts. The vitality of the Institute has been tested in another direction. Our advanced students are drawn away from us by neighboring institutions of a higher order, which, by our perfected rail road system, are now easily accessible, and thus we have nearly ceased to do the most desirable part of our former work. The use of scholarships without charge, and other pecuniary aid, have produced their appropriate results. But while we congratulate our Public School System for its success, and the six colleges whose several streams, this very year, have been swollen

from our little fountain, we cannot fail also to congratulate the institution under our care that its waters still continue to flow with so little diminution of volume.

OUR CATALOGUE.

The accompanying Catalogue is drawn chiefly from the School Records preserved by our present Principal. So far as we can learn, no other such Record of attendance at this institution is extant. We have obtained partial lists of the pupils of Messrs. Baxter and Steele, and a few other names, which will be found at the close of the Catalogue. Other facts are added from personal knowledge, supplemented by an extended and laborious correspondence.

During the 22 years embraced in the Catalogue we have enrolled the names of 1471 different students.

Approximately: Of this number,

290, or 20 per cent. were residents of Ontario and vicinity.

500, " 60 " " " LaGrange County.

1250, " 84 " " " Indiana.

while 220, or 14 per cent. came from beyond the limits of the State.

The column of "Subsequent Residences" reveals the fact that but 400 of the 900 residents of this county (referred to above), have sought permanent homes within the county, and that 500 of our students (one third of the whole number) are residents of other States. Indeed we can trace them to 21 States and 5 Territories. In the main, they have been borne upon the tide of emigration westward, into Illinois, Iowa, Nebraska, Kansas, California, and Oregon.

We have placed a star (*) upon nearly 150 names—one tenth of the whole number. It is probable that others whose career since they left us, we have been unable to trace, have finished their life work, so that the percentage of deaths may safely be placed at about 12½ per cent.

The record of patriotism, as indicated by the letter S is very incomplete. It embraces the names of but few who enlisted in the army after their connection with us had ceased.

Drawn, as our patronage has been, chiefly from the rural districts, the record of employments naturally points to "Farming" as the leading occupation of those who have been with us. It is not yet time to report the business success of those who have received so large a part of their mental outfit from us. One third of the number have so recently left us, that they can hardly have chosen their life work. As we look over the list of those who were educated with us, we discover a general prosperity that is truly gratifying. There are marked instances of eminent success in almost every honorable and useful calling. The President of a neighboring College refers to this institution as the scene of his early toils, both as student and as assistant teacher. Two Professors in neighboring Medical Colleges claim to have received their entire classical training from us. A member of Congress from Iowa was a faithful and successful student with us twenty-three years ago. Chicago and Toledo report among their successful wholesale merchants a goodly number of our graduates. And if the Lawyers, Physicians and Clergymen whom we have nurtured, are not numerous, they are at least useful—some of them eminent. One instance of alleged crime awaits investigation in a neighboring county, about the only instance, so far as we now recollect, in which the law-abiding character of any one of our alumni has ever been called in question before a court of justice.

PERSONAL.

Of the 41 Trustees whose names we have reported, 21 have died, and 11 others have closed their connexion with the Board by resignation. One of the original members, Joshua T. Hobbs, is still living. Two of the present Board received their appointments in 1841 and 1852 respectively. The others have been elected within the last twelve years.

Of Nathan Jenks we have spoken elsewhere.

George Mallow was born in Germany, but spent his mature life in this village. He contributed \$300 to our funds in 1861 and added \$500 in 1867.

Amos Davis was a native of Virginia, but emigrated to this county in 1836. He gave £250 for the general purposes of the institution in 1867, and with his time and influence aided essentially in raising the Endowment.

Rev. Stephen Thompson was a native of New Jersey, and a graduate of Princeton College. For many years he was pastor of the Presbyterian Church at Connecticut Farms, N. J. Removing

to this country in the decline of his life, he entered with great enthusiasm into the College enterprise, both as an agent for the collection of Funds, and as a friend and counsellor of both teachers and students. He is still remembered as an interesting lecturer on scientific and educational themes, and an able preacher of the gospel.

Rev. Julius Steele who took charge of the Institute October, 1840, was a native of Bethlehem, Ct., a graduate of Yale College in 1811, and a graduate of Andover Theological Seminary in 1814, and for a period of 23 years, the pastor in succession of Presbyterian Churches in East Bloomfield, Warsaw, and West Bloomfield, N. Y. In 1838 he came to White Pigeon, Mich., where he preached one year. He died February 20, 1849.

In our list of Assistant Teachers, two names occur to which we may be allowed to make especial reference. Messrs. Warren and Lewis remained with us three years each, winning the devoted attachment of their associates and pupils, and the respect of the community generally. Following the star of empire, the former "preaches the Word" at Granville, Illinois and the latter has sought a new home in Nebraska.

HOW FAR HAS THE INSTITUTE REALIZED THE DESIGN OF ITS FOUNDERS?

— o —

Answer. It has no "Collegiate" or "Theological Department," and is not technically a "Manual Labor" School. One of the contemplated "Departments" only has been organized. As an academy it has done its work and achieved its success. Incidentally, but very imperfectly, it has secured some of the other desired results. It has certainly given female students as good opportunities as males. The "shorter and irregular course" has been the prevailing one. Several graduates of our Bible Class have been regularly approved as ministers of the Word. One of our early students has spent a quarter of a century as a missionary to China, and one of our assistant teachers labored for several years in like capacity, at "Ur of the Chaldees." Our testimony in favor of "Human Rights" has never been wanting. In the village of Ontario intoxicating liquors have never been sold, but in defiance of

both law and public sentiment and our churches have been favored with Revivals of religion, in the blessings of which our students have largely shared. Our teachers have always acted in harmony with the religious community in which the Institute is located, though in some instances belonging to communions not here represented. The founders were doubtless disappointed. They *should* have counted the cost of the proposed undertaking. The investment has, however, proved a good one. "They planted more wisely than they knew."

—o—

IS THE LAGRANGE COLLEGIATE INSTITUTE A PERMANENT NECESSITY TO THIS COMMUNITY.

In view of the facts above recorded we can safely answer, "Yes." The older students of this and the adjacent counties can profitably be brought together for further instruction and discipline, while the farming interest will best harmonize with the methods of an institution which adopts no fixed course of study. We must continue to supply teachers for our Common Schools and train for the business of life the multitudes who do not aspire to a collegiate course, though not satisfied with the educational facilities offered by our Common Schools. The Academy is the missing link dropped from our chain of educational instrumentalities, in our attempt to remove them from New England to the West. We have no well endowed institutions of this order. Many of the so called Colleges are chiefly engaged in doing the work which is appropriately ours. Shæleton classes in Western Colleges point to Academies as a necessity, and College Presidents are beginning to demand their establishment and endowment. The tide of educational sentiment is strongly setting in this direction, thus clearly indicating a mission for us. The Principal of this institution has just witnessed the graduation of two of his pupils from a neighboring college, and has since been greeted by members of three other institutions who have returned to spend the Summer vacation at their several homes, almost under the shadow of the Academy in which the fires of their educational zeal were first kindled. Can we desire a work better in kind than we are doing? With better facilities we could easily secure much more desirable results.

IS THE INSTITUTE ON A SAFE PECUNIARY BASIS?

—0—

The Endowment secures its continued existence, but does not encourage us to undertake anything very unlike what we are now accomplishing. Our Buildings can accommodate 25 or 30 students with rooms, and furnish fair facilities for conducting a school of 80 pupils. But we have an inferior Philosophical and Chemical Apparatus, and a small Library, and our income is too small to support an adequate Board of Instruction. Patiently we toil and wait, believing that from their abounding wealth some of those whose business talents were here quickened to a new life will gladly furnish the needed facilities for doing a higher and better work. Will not some one find his highest gratification in taking the Institute under his nurturing care, and thus transmitting his name laden with fruits and honors to the remotest posterity?
